### EXPLORE THE DIFFERENCE - CHAPARRAL SERIES

#### GREATEST VALUE FOR ALL

Chaparral offers three distinct series of 5th wheels catering to most all customer needs, providing a vast range of affordable price points, weights, and lengths. Whether the priority is towing with a 1/2 ton truck, or sleeping a family of ten, Chaparral has nearly every 5th wheel customer need covered.

#### CHAPARRAL PRODUCT LINES

All Chaparral series are constructed on the same production line with the same core construction methods and high quality materials. This clear advantage provides consistent reliability, increased R-ratings, and improved towing advantages throughout our entire product range.

- **CHAPARRAL X-LITE** – offers top selling floorplans in an affordable, value packed fifth wheel designed for 1/2 ton trucks.
- **CHAPARRAL LITE** – fifth wheels are fully featured and offer luxurious three slide floor plans built with a lower profile and weight designed for 1/2 ton and 3/4 ton trucks.
- **CHAPARRAL MID-PROFILE {MIDS}** – designed with 3/4 ton gas and diesel trucks in mind, combining great tow-ability and lighter weight, with the spaciousness, luxury, and multitude of features typically found in much higher priced fifth wheels.
