THE PERFECT FIT FOR YOUR ACTIVE LIFESTYLE

This versatile Class B motorhome is designed for today's active lifestyles. Experience unrivaled fuel economy combined with legendary Ford® styling and reliability. Relax in luxurious captains seats while enjoying the view through large frameless windows. The interior ergonomics ensure you are as comfortable on the road as you are at home. Crossfit gets you where the action is, in style!

- ◆ Crossfit is appointed with Fawn Maple hardwoods and durable Corian countertops.
- ◆ Blue or white LED lighting accents the upper cabinets.
- ◆ The dinette is equipped with two separate tables with individual pedestals and four seatbelts, (two per side). Plus, it converts to a convenient sleeping area.
- ◆ Standard features include a two-burner LP cooktop, and a 19" LED TV mounted on an adjustable swing arm.
- ◆ The Multiplex electronic system controls the awning and the interior/ exterior lighting, via control panels or a smart phone.
- ◆ Galley drawers feature dovetail construction and contemporary hardware.

Fuel Capacity (gal.)	25
LP Capacity (lbs.)	51
Fresh Water (gal.)	30
Grey Water (gal.)	15
Black Water (gal.)	12
Awning	13' 1"

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, occupants, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GCWR (Gross Combined Weight Rating) - is the maximum permissible loaded weight of your motor home and any towed trailer or towed vehicle. Actual GCWR of this vehicle may be limited by the sum of the GVWR and the installed hitch receiver maximum capacity rating; see hitch rating label for detail.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by each axle.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s), including full fuel, all fluids and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, passengers, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs. per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

*Estimated Average based on standard build optional equipment.

**Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
