Coachmen Recreational Vehicles
A division of Forest River, Inc.
Express 9.0TD Deluxe

THE EASIEST WAY TO GET UP & GO

Clipper tent-style, pop-up hybrids feel much bigger inside, with a rear entry for easy access. Unlatch, and the struts automatically lift the roof into position. Durable, lami-plast exterior walls and roof skin maintain structural integrity and can withstand the test of time.

Express delivers a lot of comfort features including a 5,000 BTU air conditioner and a 20,000 BTU furnace plus, unlike traditional teardrop models, you can stand upright and walk around in the living space. These models are lightweight, and easy to tow by most cars, crossovers, and small SUVs.
### EXPRESS 12.0TD XL

Clipper’s one-piece, 5/8” floor structure is stronger than the industry’s standard 1/2”. Automotive undercoating protects from the elements. Congoleum residential grade Diamondflor with 100% adhesion adds beauty and durability indoors.

1-1/4” Laminated Insulated Bunkends
- Two times thicker than others
- Solid wood, steel reinforced frame, with 1” thick high density foam, and laminated wood panels top and bottom
- More stable bed end vs. chipboard or spliced plywood
- Insulation improves comfort and warmth

Competitors
- The four heavy duty scissor-style stabilizing jacks extend and retract easily using your cordless drill and the provided drill bit.
- This exclusive “Glide-N-Lock” cable supported bed system eliminates the need for support poles under the beds. Simply pull out the bed, click and it’s locked into place.
- The E-Z Swing Stepper Door with hydraulic assist, operates in seconds and provides the largest, most stable step platform in the industry.
- Clipper’s exclusive J-Track door latch maximizes stability by eliminating the flimsy nylon turn buttons traditionally used in securing the door to the roof.
- Clipper’s one piece entry door has an extra large adjustable privacy panel to let in fresh air and sunlight.
- X-Cable technology adds additional stability to the roof and prevents over cranking of the roof.
- Clipper’s one-piece, 5/8” floor structure is stronger than the industry’s standard 1/2”. Automotive undercoating protects from the elements. Congoleum residential grade Diamondflor with 100% adhesion adds beauty and durability indoors.
ULTRA LIGHT CAMPING TRAILERS

EXCLUSIVE FEATURES

1. One Piece Seamless Fiberglass Skin
2. Lauan Plywood Underlayment

No one else includes the extra wood layer between the top skin and internal foam that provides stiffness and reduces the probability of damage due to hail, road debris, etc.

3. Foam Insulated Roof Structure
4. Vinyl Coated Ceiling

Easy to clean and minimizes interior condensation

- Roof vent is placed off to the side so the A/C can be center-mounted without having to remove the vent. This design allows you to have both the vent and A/C.

Wide Trac Suspension

Better safety and stability on the road.

- Widest stance of any folding camper
- Improves towing safety and stability
- Stronger axle beams than most competitors
- Steel frame with E-coat protection

Camping Made Easy

Four Layer Insulated Roof
Braced for Air Conditioning.

- Roof vent is placed off to the side so the A/C can be center-mounted without having to remove the vent. This design allows you to have both the vent and A/C.

YOUR CLIPPER CAMPING TRAILER DEALER

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit’s axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and grey tanks to provide for more cargo capacity.

**Estimated average based on standard build optional equipment.
