HIT THE ROAD TO ADVENTURE WITH APEX’S ULTRALITE TOWABLE RVs
The lower double bunk in 208 BHS flips up to access a large storage area.
These expandable travel trailers offer the advantages of a hard wall camper with the fresh air sleeping of a pop-up tent camper.

**Lightweight Easy to Tow**

These smaller, easy to tow models deliver many of the amenities of a larger travel trailer.

**Nano Expandables**

Double axle floor plans only.

Apex Is Certified Green TRA Gold Level Rated
As a Certified Green RV, APEX utilizes effective production techniques in combination with healthy materials, plus efficient usage of energy and water to produce a high quality RV with less environmental impact.

Check us out at:
coachmenrv.com/travel-trailers/apex-ultra-lite
Azdel composite panels are produced using a patented blend of polypropylene and fiberglass to create a durable, lightweight, water and temperature resistant, odorless and environmentally friendly wall that will increase the life of your RV.

Weight matters
50% Lighter than wood
Let it rain – no mold, rot, mildew, warping or delamination
Unaffected by changes in temperature & humidity
Twice the thermal insulation of plywood
Free of formaldehyde, toxic odors and chemicals
Longer RV life
Quieter RVs
No deforestation

Knock on Wood
Traditional Lauan Sidewall Panels:
• Absorb and retain water
• Affected by humidity and temperature changes
• Susceptible to mold, rot, warpage and delamination
• Imported
• Heavier
• Inferior thermal insulation and noise blocking

Avoid Costly Water Damage
• Water and wood don’t mix
• Water can cause rot, mold and delamination of wood sidewall panels causing thousands of dollars in damage

Soak Test
• 60 Day soak test
• Wood has visible mold and decay requiring wall repair
• AZDEL was 100% unaffected

Entertainment Center
Includes an AM/FM stereo with Bluetooth, LED TV and upgraded stereo speakers. (Available on 284 BHSS, 290 BHS and 293 RLDS.)

Stainless Steel Sink
Farm style sink for easy clean up of large pots and pans.

APEX STANDARD FEATURES
Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit. All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit’s axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and grey tanks to provide for more cargo capacity.

**Estimated average based on standard build optional equipment.
