

YOUR GUIDE TO SUCCESS WITH THE GALLERIA CLASS B by COACHMEN RV – The Leader to the Great Outdoors!

The most comprehensive Class B Training Manual in the Class B segment!

Coachmen RV

LEADER TO THE GREAT OUTDOORS

DID YOU KNOW? COACHMEN RV PRODUCTS HAVE BEEN ON U.S. ROADS AND HIGHWAYS SINCE 1964!

- **COACHMEN RV...** Is built upon a simple principle “**Dedicated to the enrichment of your life.**” By providing you with long term value through all that we do, our focus is on delivering a product with superior value and backing it through superior service and support. Once you become a Coachmen owner, we are committed to enhancing your Coachmen RV ownership and lifestyle experience... creating friends for life and memories that will last a lifetime. At Coachmen RV you will find a rich history of commitment from our Team Members. This commitment extends to our owners and in the pride we have for our brand. The close relationship that we share with our owners and our dealers is a quality that others have been trying to mimic over our 50 year history. Our goals and principles remain well in focus. We create customers for life.
- **OUR HISTORY...**The first Coachmen RV products were manufactured in a 5,000 square foot plant in downtown Middlebury, Indiana, by Coachmen Industries, a company founded by three brothers: Tom, Keith and Claude Corson. Coachmen’s first year of production totaled 12 travel trailers, a single truck camper and 80 truck caps. Since then, over three quarters of a million Coachmen Recreational Vehicles have been produced and sold.
- **FOREST RIVER INC...**In December of 2008, Coachmen RV became a proud brand of Forest River, Inc., a Berkshire Hathaway company. Today, Coachmen RV, a division of Forest River, Inc., is headquartered in Middlebury, Indiana, with our primary manufacturing facilities occupying over 220 acres with more than 23 acres under roof serving as dedicated manufacturing facilities for Coachmen branded Class A Motorhomes, Class B Motorhomes, Class C Motorhomes, Fifth Wheels and Travel Trailers. Our Camping Trailers are manufactured in our Centerville, Michigan, manufacturing facilities occupying 90 acres.
- **A BRAND YOU CAN TRUST...**Coachmen RV products have been on North American roads and in North American campgrounds since 1964. With over five decades of building recreational vehicles. Over 600,000 RVs built and sold we know how to design and build a reliable RV with exceptional value, dependable design, practical innovation and the comforts and features you desire.

Mercedes Benz 3500 Chassis

Warranties

Motorhome – 12 month/12,000 mile ltd.

Mercedes Benz 36 month/36,000 mile

Mercedes Benz Powertrain 60 month/100,000 mile

Coachmen RV and Mercedes have combined their decades worth of experience to introduce Galleria, a Class B Motorhome that offers the utmost in quality, luxury and value. The Galleria is built on the award winning 3500 Mercedes Sprinter extended platform with one of the cleanest running turbo-diesel "Blue TEC" engines on the market which delivers an impressive **188hp & 325 ft lbs.** of torque while still providing excellent fuel economy. Galleria uses high end components like the Truma Combi furnace/water heater system, 2500w Onan generator and maple cabinetry that is handcrafted by a local Amish cabinet shop with radius cabinet doors, soft close doors/drawers and custom trim.

- Mercedes 3.0L Turbo V6 Diesel
- 7-Speed Automatic Transmission
- 10.25" MBUX Infotainment System
- Blind Spot Assist w/ Cross Traffic Monitoring
- Active Brake Assist
- Active Distance Assist DISTRONIC
- Active Lane Keeping Assist
- Traffic Sign Assist
- ESP-Electronic Stability Program
- Front Window & Side Airbags
- High Beam Assist
- Back-Up Camera w/ Display in rear view mirror
- Keyless Start
- Power/Heated Front Swivel Seats
- Multi Function Steering Wheel
- Magic Vision Control Wipers
- 5,000 lb. Tow Hitch with 7-Pin Wiring Connector

GALLERIA FLOOR PLANS

24Q – Quad
4 Captains Seats
(2) Re-movable Mid Chairs

24T – Triple
3 Captains Seats
(1) Re-movable Mid Chair

24FL – Front Lounge
2 Front Captains Seats

24A – Bunk House
Standard w/ side desk, opt. 3rd chair or jump seat
2 Front Captains Seats

GALLERIA COCKPIT-MERCEDES COMFORT AND STYLING

- Apple CarPlay/Android Auto
- Large 10.25" digital display
- Intelligent Navigation w/free map data updates for 3 years
- "Hey Mercedes"
- Bluetooth, USB/SD Card slot
- Tray for Smartphones incl. wireless charging

Front row and 2nd row Captain Chairs

- Embroidered and adjustable head rests on Front Row Seats and Mid Chairs
- **Child seat restraints in ALL 2nd row Captain Chairs!!!**
- Driver, Passenger and 2nd row captain chairs swivel 180 degrees.
- Re-moveable mid chair seating on 24Q and 24T
- Power/Heated front Captains
- 7 year hydrolysis Ultra Leather
- Self Leveling arms vs. manual leveling arms

Heated and Powered Memory Seating that swivels 180 degrees.

No overhead above front row chairs

- In the past TALL customers would have to get out of their coach through the driver or passenger doors only to come through the sliding passenger door
- Visually makes the coach appear more spacious
- No more customers hitting their head on the overhead
- Picture shown with upgraded and insulated window covers for Front/Driver and Passenger windows

FIREFLY MULTI-PLEX WIRING-CONVENIENCE!

- Control all coach lighting from the push of a button
- No more searching for light switches
- Customer can set the lighting to their preferences inside the coach
- While Multi-Plex Wiring is beneficial for convenience this technology cuts down on the amount of wire used and connections vs. a coach without Multi-Plex wiring

- Select the POWER setting and you will find the AGS or Auto Gen. Start
- This function allows you to pre-program your generator run time and your generators quiet time
- **The Auto Gen Start function also allows the customer to pre-program the generator to Auto Start at the customers desired temperature. This feature is great for those that travel with pets and have to leave them in the coach without the worry of their pets getting too hot**
- The Auto Gen Start function also allows the customer to pre-program the generator to start if the coach batteries voltage draws down to a certain level
- All of the above are customizable to your customers needs and camping preferences

- **NEW!** Convenient 2nd FireFly Screen in the rear of the coach
- No more searching for light switches in the middle of the night

- New! The Truma Combi Furnace/Hot Water Heater and the A/C Climate Control functions are through your FireFly Multi-Plex System
- The FireFly Multi-Plex System can also be controlled via the Vegatouch Eclipse App on your phone or tablet!

NEW CONTROL PANEL LAYOUT AND FEATURES

Battery Disconnect

- On/Off for Wi-Fi Ranger

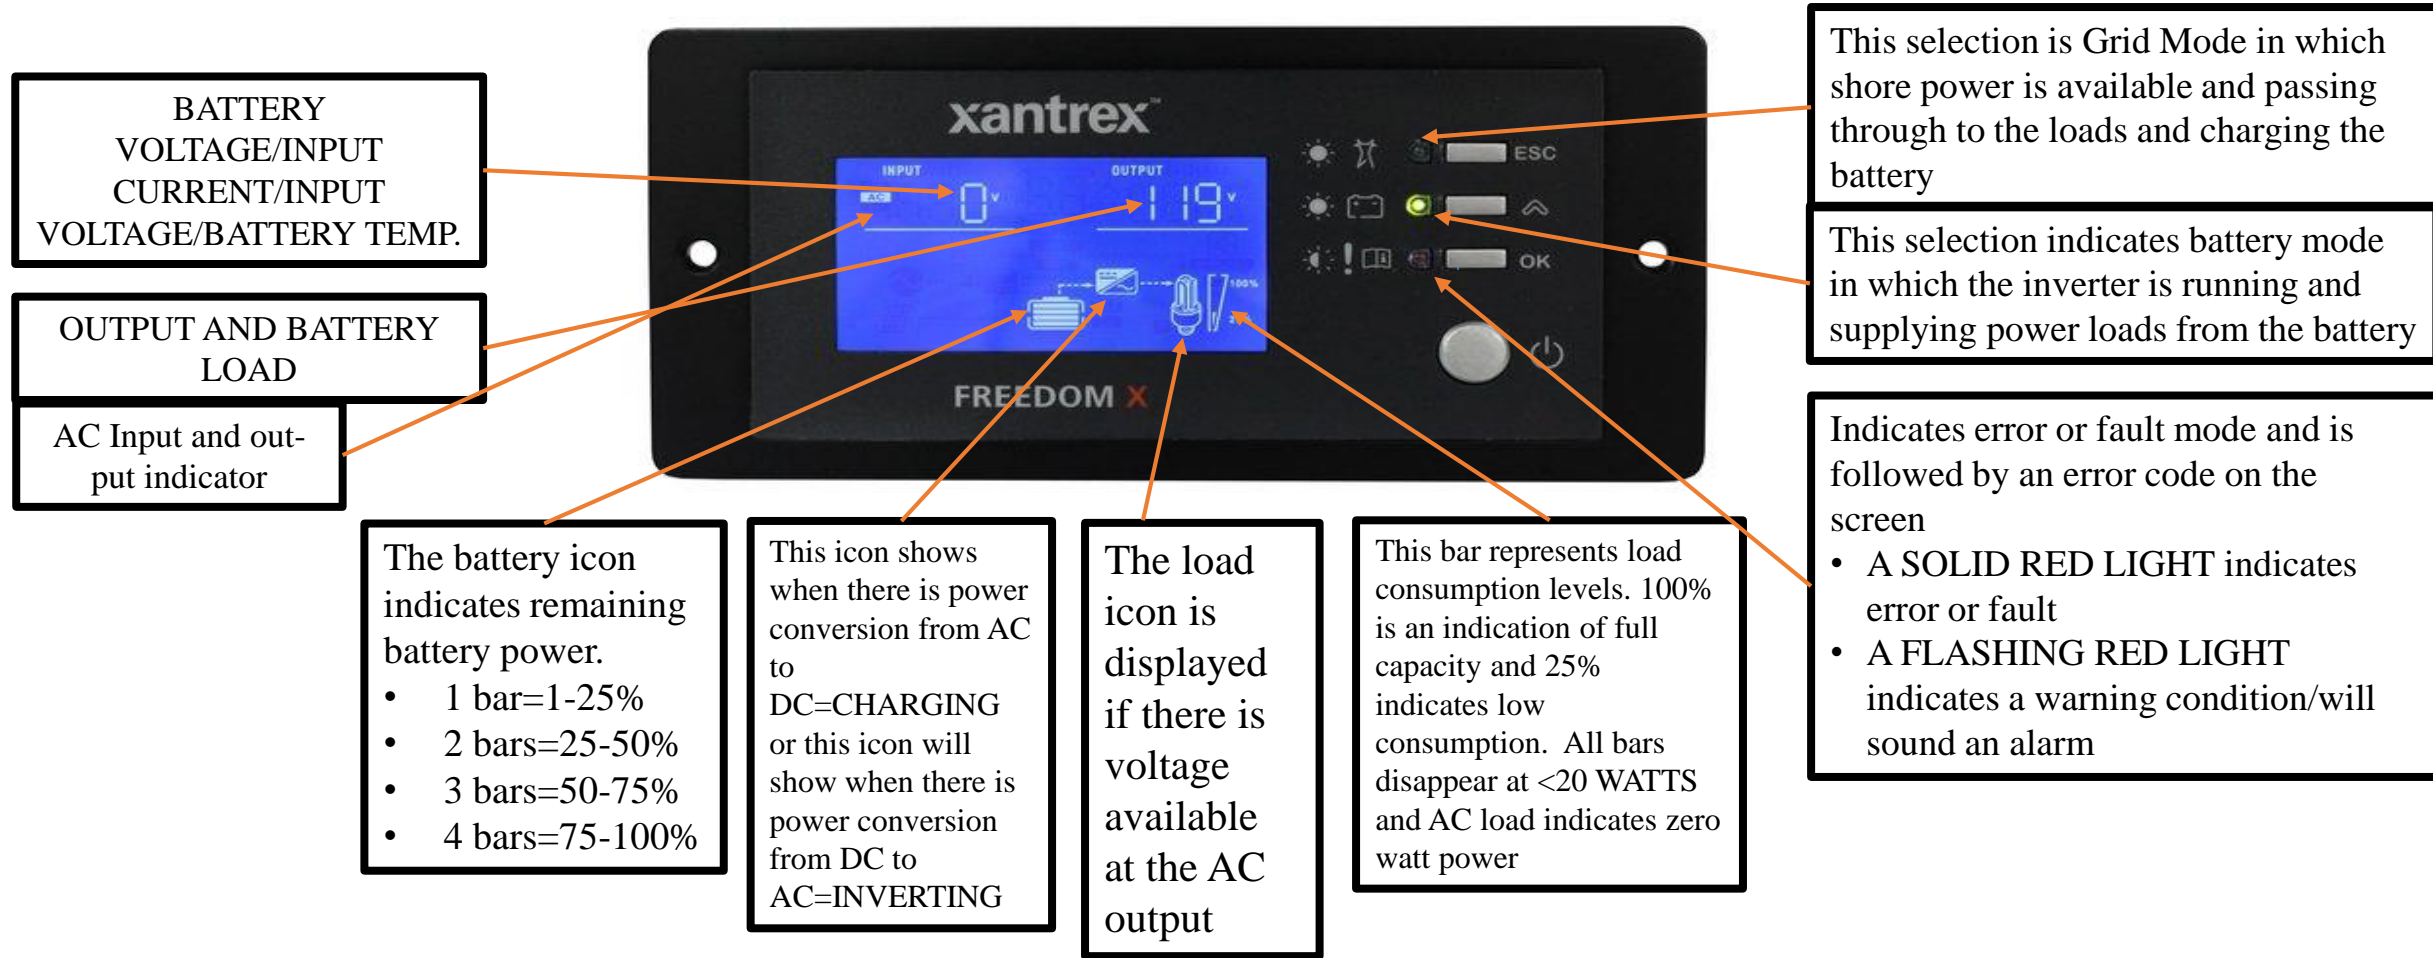

Truma CP Plus
Control for Truma
Combi Eco Plus

Go Power Solar Charger

- Pre-Set to AGM from Factory
- Pre-Set to Lithium (Li3 Option) from factory

Xantrex Freedom X Remote Panel-KNOWLEDGE IS POWER!

The Freedom X Remote Panel for your Xantrex Invertor Charger enables you to control and monitor the invertor from a convenient location and read important power supply information.

- Allows the customer to monitor in real time AC IN/OUT Voltage and current
- Allows the customer to monitor NEW! 330 AMP HOUR RELION AGM Battery
- Allows the customer to monitor their inverters percentage status bar for invertor AC output
 - Signals any Fault or Error Codes

GALLERIA Custom Hardwood Cabinetry-NO COMPARISON!

Unmatched Craftsmanship, High End Hardwood Materials, High End Residential Drawer Guides

Curved Solid Hardwood Doors

- **NEW! 90 SHEEN HIGH GLOSS**
- 7 Ply 3/4" Curved Solid Maple Hardwood over head doors with hardwood veneer
- All cabinetry stiles are 3/4" solid North American Maple hardwood
- Not Lumber Core wrapped vinyl stiles
- Not MDF vinyl wrapped doors like ROAD TREK!

High End Residential Cabinet Components

- True Residential drawer guides. Not the cheap Travel Trailer 80lb. ball bearing drawer guides
- This drawer hardware will ensure your drawers will operate smoothly and hold up to the rigors of the road for the life of your coach.
- 7 Ply 5/8" DOMESTIC FURNITURE GRADE PLYWOOD-NOT FOUND IN THE RV SEGMENT!

True English Dove Tail drawer Construction

- 5/8" Western Aspen ENGLISH DOVE TAIL DRAWERS
- Superior construction and materials ensure your Galleria's cabinetry will last vs. competitions cabinetry

NEW DRAWER CATCHES!

- Positive Locking mechanical drawer catches.
- Stops drawers from sliding open while driving.

GALLERIA Kitchen/Cabinetry/Storage-INDUSTRY LEADING CABINETRY QUALITY!

Residential Sink and High Rise Faucet

- Residential high rise faucet. Easier to use, less warranty, can fill larger pots with water.
- Residential 12" round under mount sink with slotted surface sink cover for lunch and dinner plate drying.

Trash Can Storage

- Every Galleria has dedicated trash can storage in the kitchen base cabinet
- Also has additional storage for paper towels and trash bag boxes.
- A Residential Feature not found in most Class B's.

Unmatched Cabinetry Quality!

- ¾" Solid North American Maple Drawer Fronts
- Solid High Gloss Maple hardwood
- Residential drawer guides

Overhead cabinetry

- 90 sheen HIGH GLOSS FINISH!
- Larger overhead storage locations
- Allows for storage of larger items than in the past.
- 1" lip at the bottom to keep items from falling out when you open the door
- Felt lined cabinet bases for noise reduction

- Motion Sensor Overhead Cabinet Lighting with On/Off switch override.
- Composite backed Overhead Cabinets- Dampens cabinet noises while in travel

Redesigned Shirt Locker w/Pull Out Make-Up Drawer

- Mirror and pull out drawer w/ adjustable shelves
- This is a great place to be able to finish getting ready while someone else is in the shower.

GALLERIA Bedroom/Sofa-TRUE COMFORT IN STYLE!

TRUE LAY FLAT SOFA/BED

- **180 degree LAY FLAT SOFA**
- **Lay Flat Sofa Dimensions 68"W x 76"L**
- **NO HUMPS/NO GAPS**
- **Increased Memory Foam for better sleeping and sitting comfort**
- **Added re-movable headrests for additional comfort on long trips.**
- **7 year hydrolysis Ultra Leather covering on all furniture**
- **3 Seat Belts**

DEDICATED CPAP LOCATION

- Place CPAP machine in Driver side overhead
- Run 110V plug down through overhead grommet
- Run CPAP hose down through overhead grommet
- No pinching of hoses
- Centrally located by bed

NEW READING LIGHTS!

- DRIVER SIDE AND PASSENGER SIDE NOW OPERATE INDEPENDENTLY!
- Touch once and the night light comes on.
- Touch again and reading light turns on.
- USB Port in reading light base.

GALLERIA Bathroom-MORE FUNCTION vs. COMPETITION

Bathroom

- Shower Miser- Conserves your hot water!
- Oxygenics® Shower Head
- Large 18" Towel Bar
- Bathroom faucet with retractable shower head
- Mirror on Articulating Arm
- Sealed Toilet Paper Holder
- Frosted glass allows for additional lighting into coach
- Porcelain toilet with marine style foot flush
- Fiberglass shower surround vs. ABS
- 3 molded storage areas for bath items
- **NEW! WEIGHTED SHOWER CURTAIN! NO MORE CLINGING TO YOUR THIGH!**

The Benefit of Split Bathroom Doors

- Dry off/Changing Area
- Open both shower doors/close day night shades across from shower and you have an area to step out of the shower in privacy to dry off and change clothes vs. having to stay in the shower to dry off and change clothes.

GALLERIA SHOWERMISER-SAVE YOUR H2O!

AQUA VIEW INTRODUCES REVOLUTIONARY WATER SAVING SYSTEM FOR RV'S

Aqua View Inc. has introduced the SHOWERMISER, a new and revolutionary water saving system that attaches to the showerhead in RVs, boats and anything with a shower. It redirects cold water that normally goes down the drain back into the fresh water tank.

In under 4-seconds the SHOWERMISER shows when the hot water has arrived by using its unique and patent-pending color-changing technology. A shower is then ready to be taken and not a drop of cold clean water is wasted.

With this innovative system, called extended stay technology, you can increase your fresh and gray water tank capacities up to 40% without changing your tanks, **or adding weight!**

It redirects cold fresh clean water that normally goes down the drain back into the fresh water tank. This allows more time to enjoy camping.

SEE VIDEOS ON THE OPERATION OF YOUR SHOWERMISER AT

<http://www.aquaviewinc.com/rv/>

TRUMA COMBI ECO PLUS FURNACE / HOT WATER HEATER

Truma Combi Eco Plus – The first forced-air combination furnace with integrated water heating function and with more than 20 years of reliable service in Europe and Australia. Truma Combi furnaces are the most energy-efficient and lightest heating systems on the market. They effectively combine warm air and hot water in one appliance. Truma Combi furnaces offer much more operating convenience by way of the digital control panel Truma CP plus.

Be sure to let your customers know there are many videos available on YouTube on the operation of the Truma CP PLUS

Unique Features

- Near-silent operation
- Lightweight, space-saving solution
- Maintains constant temperature throughout RV
- Optional electric heating for furnace and water
- Highest available energy efficiency of more than 90%
- Program your timer to have hot water ready.

TRUMA COMBI ECO PLUS FURNACE / HOT WATER HEATER

Truma Combi

Quick Reference CP Plus Functions

ADJUST ROOM TEMPERATURE

Range: 40-86°F (5-30°C)

SELECT ENERGY MODE

- a) LP gas
- b) MIX 1* - Electricity 850W + Gas
- c) MIX 2* - Electricity 1700W + Gas
- d) EL* - Electricity 850W
- e) EL* - Electricity 1700W

ADJUST WATER TEMPERATURE

A) BOILER

Hot water generator is on.
Icon flashes until desired temperature is reached.

B) ECO

Water temperature is 104°F (40° C)

C) HOT

Water temperature is 140°F (60° C)

D) BOOST

Boiler content is heated quickly (boiler priority) for up to 40 minutes. The water temperature is then kept at the higher level (about 144° F (62° C) for two subsequent heating cycles. When the water temperature is reached, the room is heated again.

OFF

Fan is switched off (If furnace mode OFF)

A) VENT

Circulating air (If furnace mode OFF)

B) ECO

Low fan speed

C) HIGH

High fan speed

D) BOOST

Fast room heating. Available if the difference between the selected and current room temperature is >18° F (10° C)

XANTREX FREEDOM XC TRUE SINE WAVE INVERTOR and CHARGER...

POWER AT YOUR FINGERTIPS Now Standard on Galleria!

XANTREX FREEDOM XC TRUE SINE WAVE INVERTOR and CHARGER PRODUCT FEATURES

- Designed to power demanding loads such as microwave ovens, TVs, DVD players, small appliances and other electronic equipment
- Ignition lockout feature helps to minimize battery drain
- Automatic three-stage battery charger
- Designed to be hardwired using quick-connect AC terminal blocks or by connecting AC through GFCI receptacles (included)
- Built-in 30-amp relay to automatically transfer between inverter power and incoming AC utility power

XANTREX FREEDOM PRODUCT FEATURES

- Battery over-voltage and under-voltage protection
- Over-temperature shutdown
- Automatic overload protection
- Short-circuit protection
- Ground-fault protection
- ETL certified to UL458 for use in mobile RV and commercial application

XPEDITION BATTERIES 330AMP HOUR AGM BATTERY

Xpedition Batteries XP8D-330 AGM Deep Cycle, maintenance-free batteries, are designed to provide premium performance!

READY WHEN YOU ARE: Xpedition AGM Deep Cycle Batteries are deep cycle batteries that deliver high capacity from the get-go. Unlike traditional lead-acid batteries that need to be “worked up” to increase capacity, these batteries give you the range or hours of operation you need right away.

HIGH PERFORMANCE IN LOW TEMPERATURES: Batteries don’t like cold temperatures, but Xpedition AGM Deep Cycle batteries deliver more capacity than traditional lead-acid batteries, even in extreme conditions.

FORGET ABOUT ACID: No need to worry about spills or acid-residue. You’ll never need to replace a corroded chassis or damaged floors due to acid spillage.

SAVE WATER AND WORRY: Using your batteries in a remote location? Is your access limited? Maintenance-free Xpedition AGM Deep Cycle batteries are perfect for applications where watering is easily neglected or very inconvenient. Traditional lead-acid batteries are subject to reduced performance or early failure if not watered regularly.

LOW SELF-DISCHARGE: Xpedition AGM Deep Cycle batteries are the ideal solution for infrequent or seasonal use since self-discharge is significantly less than traditional lead-acid batteries. Less frequent, if any, charging is needed during storage.

WE DON’T PASS GAS: Non-hazardous, clean Xpedition AGM Deep Cycle batteries emit no gasses during normal operation. They can be used safely near sensitive equipment or people.

INSTALLATION SENSATION: Thanks to their innovative design, Xpedition AGM Deep Cycle batteries can be installed upright or on their sides, making for flexible installation options in a variety of applications.

AGM 330AMP HOUR 8D BATTERY

- 8D 330AMP HOUR BATTERY DIMENSIONS: 20.8”x 11.1”x 9.8”
WEIGHT:182LBS
- 1 YEAR WARRANTY
- Power to ALL 110V outlets when coupled with our Standard Xantrex 2000W Pure Sine Wave Invertor without needing the generator
- Located under the rear of coach on the passenger side

ONAN RVQG2500i 2.5kw LP GENERATOR

The new Onan 2500 LP Generator uses inverter technology for cleaner power while using less fuel and producing less noise than earlier models. The new Cummins Onan RV QG 2500i LP powered RV generator replaces older models like Onan Microlite 2500 and the 2.5HGJBB-1121. New benefits include no daily oil check between maintenance with a 40 percent higher oil capacity plus a new permanent magnet alternator (PMA). The 2500 watt Onan Propane generator is US EPA and California emissions compliant.

Onan RV QG 2500 LP Generator

The Onan QG 2500 LP generator for RV Motorhome applications has enough power to start and run one 13,500 BTU air conditioner on a 600-Watt baseload. Computer overload control prevents nuisance circuit breaker tripping. Inverter technology allows the generator engine to run at variable speeds depending on the load. Higher loads increase the speed while lower power use decreases the engine speed to save fuel and reduce noise. The catalytic muffler within the enclosure further reduces noise. A three-point mounting system isolates vibration and the enclosure for quieter, smoother operation. Noise output ranges from 63 dBA at no load to 65 dBA at full load makes the Onan 2500 LP Generator the quietest its class.

Onan 2500 Features & Benefits

Computer controlled operation matches the load demand to the engine speed, minimizing the 2500 noise level and vibration. Meets National Park Service noise requirements and has a USDA Forest Service approved no-maintenance spark arrestor.

Electronic Fuel Injection eliminates the need for a carburetor. Fuel consumption at no load is just 0.18 gallons per hour; half load is 0.31 gallons per hour, and full load 0.55 gallons per hour.

The PMA has no bearings to wear out and no brushes to replace. It powers the inverter for a pure sine wave output and the best possible power quality. Overload control prevents unnecessary circuit breaker tripping when the air conditioner starts.

Fully Tested for RV Applications in Cummins owned RVs in extreme conditions including high humidity, salt spray, heavy dust and temperatures between -20 F and 120 F both starting and running.

The Cummins 3-Year or 2000-Hour Warranty applies to RV generator sets used in RV applications.

Premier Turbo II 12V A/C

The Premier System utilizes a soft start compressor, which slowly ramps the compressor up to speed over a 3-5 minute time period. In the extreme conditions of the test, this can be seen by faster initial temp drops from the Brand X unit. At the conclusion of the test, average probe temperatures were equivalent to the Brand X unit. The soft start compressor is used to prolong compressor and battery life and reliability.

Average Amp Draw Through Entire Test
Brand X: 125 Amps
Premier: 80 Amps

Utilizing 2/3 of the power consumption, the Premier System effectively cooled the vehicle while providing 15% more air flow.

Air Flow:
Brand X: 250 CFM
Premier: 285 CFM

POWERING THE WAY TO BETTER TRAVEL

The FREEDOM eGEN is a fully integrated system that offers the most reliable AC and DC power to run an air conditioner and other high power loads in all climate conditions and precise battery management for accurately charging lithium ion batteries from multiple sources. The most compelling benefit the system offers to RVers is the freedom and confidence to camp wherever they want.

5

FREEDOM SW COMBOX

6

CONEXT COMBOX APP

Safest System, Redundant Safety Features

- LiFePO4 is the safest battery chemistry on the market today!
- Patented self extinguishing feature
- Individual cell management ensures each cell is charged evenly
- BMS (battery management system) controls all charging sources (solar, alternator, shore power) to achieve optimized charging performance
- BMS has separate thermal controls for charging and discharging
- No external AGM battery needed to power BMS

Longest Lasting, Superior Capacity

- "A" Grade Lithium vs. "B" Grade Lithium
- "A" Grade Lithium allows for less impedance & higher power discharge capacity
- LiFePO4 chemistry has twice the cycle life than nickel cobalt based chemistry
- Temperature protection of battery for charge/discharge for maximum battery use
- Inverter operating temperature range -4°F to 140°F
- Battery charge temperature range 32°F to 113°F
- Battery storage temperature range (1 mo) -4°F to 113°F

Completely Integrated System

- All components of the Freedom eGEN Li3 option for the Coachmen Galleria developed as ONE system in partnership with Xantrex
- Unique BMS controls 600 Ah battery, 3000W/150A Inverter/charger, 280A alternator and voltage regulator offering the most intelligent power system with unmatched temperature, low voltage and over charge protection
- 2 methods to monitor EXACT state of charge
 - Battery Monitor
 - Wireless Tablet which also offers real time discharge, charge and voltage/amperage

Longest Runtime of AC & Other Electronics

- Runs 20,000 BTU AC for 10 hours*
- Based on 60% duty cycle
- LiFePO4 battery lasts 6-10 times longer than traditional lead acid or AGM batteries
- LiFePO4 Lithium battery offers 100% depth of charge compared to 50% for AGMs

Fastest Engine Recharge Time from Multiple Sources

- BMS has superior performance due to ONLY SILVER and COPPER make up vs Aluminum and Nickel
- Charge time from 0 State of Charge= 2 hours (optimal conditions)
- Optimum thermal design - cells are encased with aluminum for ideal heat dissipation vs plastic
- Single battery module for optimal balanced charging

OPTION: VB AIR SUSPENSION

GALLERIA STANDARD INDUCTION COOKTOP

Feature: With induction cooking, energy is supplied directly to the cooking vessel by the magnetic field.

Benefit: Almost all of the source energy gets transferred to that vessel. Meaning 84% or more of the energy is used to cook.

- Built in safety functions
- Quick touch level selection
- Exact temperature settings
- Timer setting
- Two year limited warranty
- 1600 watt heating element

VS

- No built in safety functions
- No quick touch level selection
- Educated guess temperature settings
- No timer setting
- Two year limited warranty
- 1000 watts heating element

With propane gas or conventional electric cooking the energy is first converted to heat and only then directed to the cooking vessel. Much of this heat goes to waste, heating up your kitchen (and you) instead of heating your food. Less than half, approximately 40% of the energy in gas gets used to cook.
