

ENCORE

TOP FEATURES

NOBLE SELECT™

The Noble Select sidewalls feature a high gloss fiberglass gelcoat with an automotive-like finish. Azdel panels provide a strong, lightweight, water resistant wall that is 50% lighter than wood and has 3X the insulation. Keeping your coach cool in the summer and warm in the winter extends your camping seasons and ensures the structural integrity of your coach.

SOLAR PANEL

The 100-Watt solar panel provides 8-10 amps of power under ideal conditions. The solar panel trickle charges your house batteries, allowing you to camp in remote places for longer periods of time without running your generator or being plugged into shore power.

DUAL 15K A/C'S WITH HEAT PUMPS

Dual 15,000 BTU A/C's with Heat Pumps are standard. A Heat Pump will warm your motorhome without having to run the L/P furnace. It provides heat for your motorhome when the outside ambient temperature is as low as 25° compared to other heat pumps that only operate at 38°.

CoolStream

COOLSTREAM® EVEN COOL DUCTING

Our patented duct system evenly disperses air through the whole coach. We use CoolStream ducting instead of Styrofoam because it's antimicrobial, preventing the growth of bacteria and ensuring a cool, clean coach in even scorching heat.

FIBERGLASS ROOF

The Pebble Grain Fiberglass roof is easy to clean, seamless and long lasting. It utilizes an Azdel backer, is structurally sound and fully walkable.

NPS GENERATOR

The 5500-watt generator is powered by Yamaha. It has a 3-year / 2,000-hour warranty, integrated pull start, remote start with key fob, the largest network of service locations in the industry and is up to 50% more fuel efficient than the competition.

ELONGATED WHEELBASE

We offer longer wheelbases than other motorhome manufacturers because that means superior weight distribution. The result? Better handling and a smoother ride.

SIGHT RITE DASH

Our dashes are angled 20 degrees forward. This increases the line of sight for the driver and offers the best road visibility on the market.

WASHER/DRYER PREP

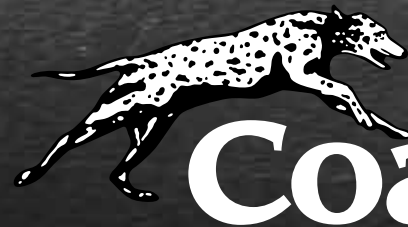

Every Encore floor plan is prepped for a stackable washer/dryer. The prepped area also serves as a closet or wardrobe giving you the flexibility to use the space most applicable to you.
