

Pursuit

TOP FEATURES

AZDEL

Azdel panels used on the interior and exterior of the sidewalls provide a strong, lightweight, water-resistant wall that is 50% lighter than wood and has 3X the insulation. Keeping your coach cool in the summer and warm in the winter extends your camping seasons and ensures the structural integrity of your coach.

SOLAR PANEL

The 100-Watt roof mounted solar panel provides 8-10 amps of power under ideal conditions. The solar panel trickle charges your house batteries, allowing you to camp in remote places for longer periods of time without running your generator or being plugged into shore power.

15K A/C'S WITH HEAT PUMPS

15,000 BTU A/C(s) with Heat Pumps are standard. A Heat Pump will warm your motorhome without having to run the L/P furnace. It provides heat for your motorhome when the outside ambient temperature is as low as 25° compared to other heat pumps that only operate at 38°.

COOLSTREAM® EVEN COOL DUCTING

Our patented duct system evenly disperses air through the whole coach. We use CoolStream ducting instead of the Styrofoam insulation because it's antimicrobial, preventing the growth of bacteria and ensuring a cool, clean coach in even scorching heat.

ON-DEMAND WATER HEATER

With a heating capacity of 2.4 gallons per minute or 144 gallons per hour, you'll have an instantaneous and consistent supply of hot water without having to wait for a tank to fill. With a powerful 60,000 BTU, the unit heats fast and performs effortlessly, even when temperatures drop to 39°F (4°C).

MODERN SQUARE WINDOWS

Modern square Euro frameless windows have integrated window screens and insulated blackout blinds. No valances on the interior provide more sunlight and visibility outside. The integrated blinds result in less road noise than traditional blinds.

ELONGATED WHEELBASE

We offer longer wheelbases than other motorhome manufacturers because that means superior weight distribution. The result? Better handling and a smoother ride.

SIGHT RITE DASH

Our dashes are angled 20 degrees forward. This increases the line of sight for the driver and offers the best road visibility on the market.

DROP DOWN BUNK

The hidden drop-down bunk provides extra sleeping for your guests. The bunk will hold up to 250 lbs and has a net and mattress pad.
