**GVWR (Gross Vehicle Weight Rating)** is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, occupants, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Coachmen reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Coachmen dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision.

# THE COACHMEN ADVANTAGE

What is the Coachmen advantage? It's the collection of unique features offered in a Coachmen RV to ensure a smoother ride, a better camping experience, and a trailer that will last for years.

## REINFORCED LAMINATION

We vacuum bond and pinch roll every sidewall, then perform a pull-adhesion test.

Most manufacturers just do one process or the other, but by doing both we improve the strength and longevity of the sidewalls.

## COOL STREAM DUCT™

Our patented duct system evenly disperses air through the whole coach.

We use residential ducting instead of Styrofoam because it's antimicrobial, preventing the growth of bacteria and ensuring a cool, clean coach in even scorching heat.

## AZDEL™ COMPOSITE

Most manufacturers use wood sidewalls that can expand, swell, and eventually mold.

We use Azdel.

It's impervious to water, won't rot or mold, and with less than a 1% chance of delaminating, it ensures the long-term integrity of the sidewalls.

## DIGITAL OWNER'S MANUAL

Our owner's manuals are easy to access through the Coachmen website or our free app.

Supplemented with videos, PowerPoints, and more, it's got all you need to know about your coach.
